

Welcome Letter of Moscow Association of Entrepreneurs
to the Organisers, Participants and Guests
of Moscow International
Exhibition and Conference
“Motor Show 2010”

On behalf of Moscow Association of Entrepreneurs and on my own behalf, I am glad to welcome the organisers, participants and guests of Moscow International Exhibition “Motor Show 2010”.

Growing wellbeing of the population and dynamic development of Russian economy provide for higher interest to new reliable, environmentally friendly and safe car models.

The role of automotive industry in the Russian economy is extremely important. Dynamic growth of car manufacturing industry meets strategic interests of the state, car manufacturers and the community in general contributing to provision of jobs to people and generation of new standards of life quality.

There is every indication that this exhibition will become a remarkable event and will make its major positive contribution to the development and strengthening of Russian market of automobile spare parts.

It is important to note that the exhibition will comprise a conference, which will cover vital issues of the industry, such as operating concepts of international companies in the Russian market, discussion of critical issues of mutually beneficial cooperation between Russian and international companies and assistance in the development of the industry in general.

I am confident that Motor Show exhibition and conference will become the largest events in the automotive industry.

Good luck!

President

A. E. Podenok
